

# LACTOFERRIN

## The Foundation of Life

**Reinforces the natural defenses  
of the body**

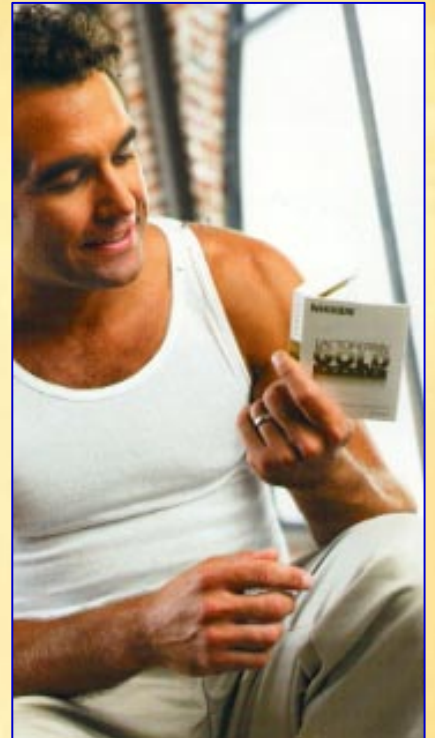

# The Need for Lactoferrin

- Lactoferrin deficiency and/or dysfunction is a predisposing factor for infections and physiological disorders & a decisive marker for clinical diagnosis of various disease conditions
- A healthy life requires Lactoferrin supplementation

# Causes of Lactoferrin Depletion

- Dietary habits
- Stress and fatigue
- Sports and exercise
- Sex
- Pregnancy and lactation
- Bathing and brushing
- Anxiety and depression
- Allergy and inflammation
- Injury and healing
- Infection and periodontitis
- Cancer and other diseases

# Lactoferrin Gold 1.8

- Made from milk which comes from cows raised in New Zealand. The cows are fed organically and receive no hormones or antibiotics.
- 3 liters of milk produce one 60mg capsule of Lactoferrin Gold 1.8
- Patented freeze-drying extraction process (at - 80°C) creates purity while maintaining full potency and prebiotic qualities. This creates a highly functional or “activated” lactoferrin, that is far more potent than any other lactoferrin product on the market
- Typical bacterial “kill ratio” is 12-15% with regular lactoferrin, while activated lactoferrin has a kill ratio of 99%

created by Dr. Narain Naidu, one of the world's leading experts on lactoferrin

# Benefits of Lactoferrin Gold 1.8

## Anti-microbial

- Defends against invading pathogens and other disease-causing agents.
- Can provide relief for candida yeast and athlete's foot.
- Can increase the effect and decrease the side effects of antibiotics and anti-fungal drugs.

## Immunomodulatory

- Balances immune system activity
- Can suppress tumour growth

## Antioxidant and anti-inflammatory

- Regulates iron metabolism, preventing oxidation
- Increases the effect of other antioxidants
- Controls cell or tissue damage (i.e. anti-aging)

## Intestinal health

- Increases the intestinal absorption of all nutrients
- Maintains healthy flora
- Protects the intestinal mucous
- Supports the digestive system

# Ultra-cleansing process

**SURFACTANT STAGE**  
Reduces gram-positive  
bacteria, yeast, mold

**POLYPHENOL STAGE**  
Acts on gram-negative  
bacteria

**ANTIOXIDANT STAGE**  
Neutralizes endotoxins

## Purity

gluten-free  
fat-free  
glucose-free  
no GMOs  
lactose-free

Exceptional  
quality

Entirely  
natural

# Recommendations

- Take with Pi-mag water
- 1 capsule a day (60mg of lactoferrin is adequate for normal, healthy individuals)
- People with serious health challenges or those who deplete lactoferin rapidly can take up to 3 capsules a day
- Safe for anyone over 4 years old
- No contra-indications – enhances the effect of many medications
- Safe for people who are lactose-intolerant or have milk allergies
